20 MAY (4:30 PM)

21 MAY (9:00 AM)

Economic Development Stimulus Policy

- 1. We are proposing changes to the Economic Development Stimulus Policy to improve its effectiveness in supporting the Upper Hutt economy (see page 7 of the Consultation Document).

Do you agree with our proposed changes?

Yes No

- 2. In terms of business activity, the city centre needs more of the following in order to thrive (select all that apply):

- Bars/restaurants/cafés
- Fast food/takeaways
- Retail chain stores
- Hair/nail/beauty services
- Travel/accommodation/tourism services
- Business/commercial offices
- Boutique retail experience stores
- Government/council services
- Social services/childcare
- Other:

Sustainability Strategy

Our Sustainability Strategy is due to be reviewed later this year. We would like your help in shaping this review by giving us some feedback on the following questions (see page 6 of the Consultation Document).

- 3. As a resident of Upper Hutt, what does sustainability mean to you?

.....

.....

.....

.....

- 4. What do you think are the biggest sustainability challenges that face Upper Hutt?

.....

.....

.....

.....

- 5. What do you think should be Upper Hutt’s primary sustainability focus?

Kerbside recycling 2021 – 2031

Page 6 of the Consultation Document suggests some alternatives that Council may potentially consider for the Long Term Plan 2021 – 2031.

Please note the estimated costs we’ve outlined when you consider your preference.

- 6. Would you prefer to pay for kerbside recycling privately or through rates?

I’m happy with a user-pays (private) recycling service.

I’d prefer a rates-funded recycling service.

- 7. If you prefer a user-pays system, are you happy with the current system, or should Council look at alternative models such as the one in Kāpiti?

I’m happy with the current system.

Council should explore alternative models.
